AREA MAP

This directory includes listings of subscribers in the areas served by central offices located in Norfolk, Portsmouth and South Norfolk. The map below outlines the boundaries of these areas and identifies, by their telephone numbers, the areas in which subscribers are located.

HOW TO USE THE DIAL TELEPHONE

BE SURE OF NUMBER

Please do not call from memory. Obtain the number from the directory—Write it down and refer to it while dialing. If the desired number is not in the directory, dial "113" (Information).

HOW TO DIAL

Remove the receiver and LISTEN FOR THE DIAL TONE—A steady humming sound. The equipment will not function until you hear this tone.

For example, to call LOwell 5-2499:

Place your finger in the dial opening at the letter L and pull the dial around until your finger strikes the stop. Remove your finger and let the dial return freely. Do not touch the dial as it returns. Next Dial the letter O (Be sure to dial the LETTER "O" and not the NUMERAL "ZERO"). Then dial the numerals 5-2-4-9-9 in the same manner.

If you make an error in dialing, hang up for a few seconds and dial the complete number again. A bur-rr-ing sound indicates that the called telephone is ringing. A buzz-buzz sound indicates that the called line is busy, in which case, replace the receiver and dial later.

EMERGENCY CALLS

In an emergency, or if you need help in getting a number, dial "Operator." On such calls you may get her back again by moving the hook up and down slowly.

OUT-OF-TOWN CALLS

Instructions on how to make out-of-town calls are given on the inside front cover under "How to Make Long Distance Calls."

SPECIAL INSTRUCTIONS FOR PARTY-LINE SUBSCRIBERS

A busy signal repeatedly encountered may mean that you are calling another party on your line, in which case a special code and procedure will be required. Dial "114" and give the answering operator your telephone number as well as the number of the desired party. She will tell you if the other party is on your line and will give you the special code for reaching him.

IN NORFOLK, PORTSMOUTH AND SOUTH NORFOLK

From All Party-Line Telephones Except Rural—Dial the correct code and replace your receiver on the hook. Your bell and that of the called party will ring. When the called party answers, your bell will stop ringing. Remove your receiver promptly and start the conversation. If the called party does not answer, remove your receiver for a few seconds to stop your bell from ringing.

From Rural Telephones—If after dialing a listed number you receive the busy signal and immediately after you hang up, your bell rings, it indicates that you are calling another party on your line. When the called party answers, your bell will stop ringing. Remove your receiver promptly and start the conversation. If the called party does not answer, remove your receiver for a few seconds to stop your bell from ringing.

If your telephone rings and you find no one on the line, it may be a call from another station on your line. Wait a few seconds to give the calling party time to realize you have answered.

IN GREAT BRIDGE

FROM TELEPHONES BEGINNING WITH LI 7-1 — Upon dialing another party on your line you will receive a busy tone. When you hang up, the telephone of the called party will ring, but your telephone will not receive the ring. You should wait until the called party has had time to answer, then lift the receiver and start the conversation. If you are in doubt as to whether or not a number is on your line, you may dial "8" and obtain the information.

FROM ALL OTHER TELEPHONES — All telephone numbers which differ only in the last digit are on the same line. For example, LI 7-6371 and LI 7-6376 are on the same line. To call another party on your line, dial "9", then dial the LAST digit of YOUR number followed by the LAST DIGIT OF THE NUMBER YOU ARE CALLING. After dialing replace your receiver on the hook. Your bell and that of the called party will ring. When the called party answers, your bell will stop ringing. Remove your receiver promptly and start the conversation. If the called party does not answer, remove your receiver for a few seconds to stop your bell from ringing.

If your telephone rings and you find no one on the line, it may be a call from another station on the line. Wait a few

Additional Telephone Lines

A separate number in your home or place of business makes it easier for friends or customers to reach you. Ideal, too, for large families or for your "teen-ager."

Shoppers' Wonderland!

THE YELLOW PAGES

YELLOW PAGES . . . the shopper's wonderland . . . the buyer's guide . . . the business man's go getter. Buyers — prompted by a continuing and novel promotion of the Yellow Pages —turn to them more and more for the products and services they want and need. Best of all they use the Yellow Pages when they're ready-to-buy. A convenient and time-saving service for the consumer, and for the businessman . . . YELLOW PAGES means BUSINESS!

Telephone Planning for PRESENT AND FUTURE NEEDS

If you're building or remodeling, plan for the telephone service you will want, both now and in the future. Provide for your needs while the walls are open. The telephone company will gladly help you plan ahead—whether for home or office.

HELPFUL INFORMATION

Automatic ANSWERING SET

Certain telephones are equipped with an automatic device, known as an Automatic Answering Set, which answers the telephone mechanically when no person is available to answer and then makes a recorded announcement.

If your call is answered by an Automatic Answering Set, listen carefully for the announcement which will be self-explanatory.

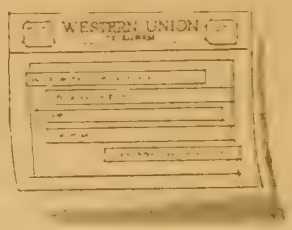
Some of these sets will also receive and record a message from the caller.

When You Hear A "BEEP" TONE

If you hear a short "beep" tone on your telephone about every 15 seconds, it means that the person with whom you are talking is recording your conversation. This signal is provided by the Telephone Company for your protection. Use of a recorder without recorder-connector equipment containing a tone-warning device is contrary to the Company's tariffs and not permitted. If you do not want a record made of what you are saying, ask the person with whom you are talking to disconnect the recording machine. When he disconnects, you will no longer hear the "beep" tone.

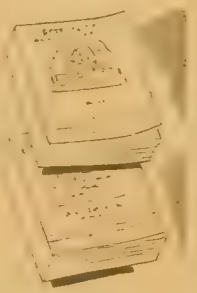
BLUE BOOK OF TELEPHONE NUMBERS

For faster service this attractive Blue Book of Telephone Numbers provides a handy place for keeping your personal list of local and out-of-town numbers. *To obtain without charge, just call, write or visit your business office.*



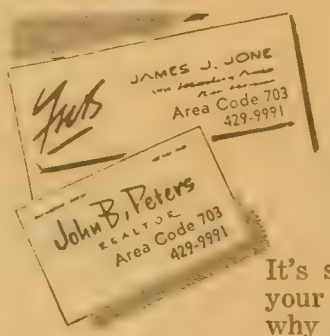
Employee IDENTIFICATION CARDS

For your protection, any employee who visits customer premises carries an official identification card showing his or her name and signature. If you have the slightest doubt about anyone who says he's "from the Telephone Company" ask to see his card.



TO GET A NUMBER FROM INFORMATION

If you cannot find the number in your directory or in your personal list of telephone numbers, dial 113. Great Bridge dial "Operator" and ask for Information. When the Information Operator answers, first give her the name of the city or locality you are calling. Then give her the name and address of the party whose number you want. By first specifying the city or locality, you will insure faster service.



TELEGRAMS *by* TELEPHONE

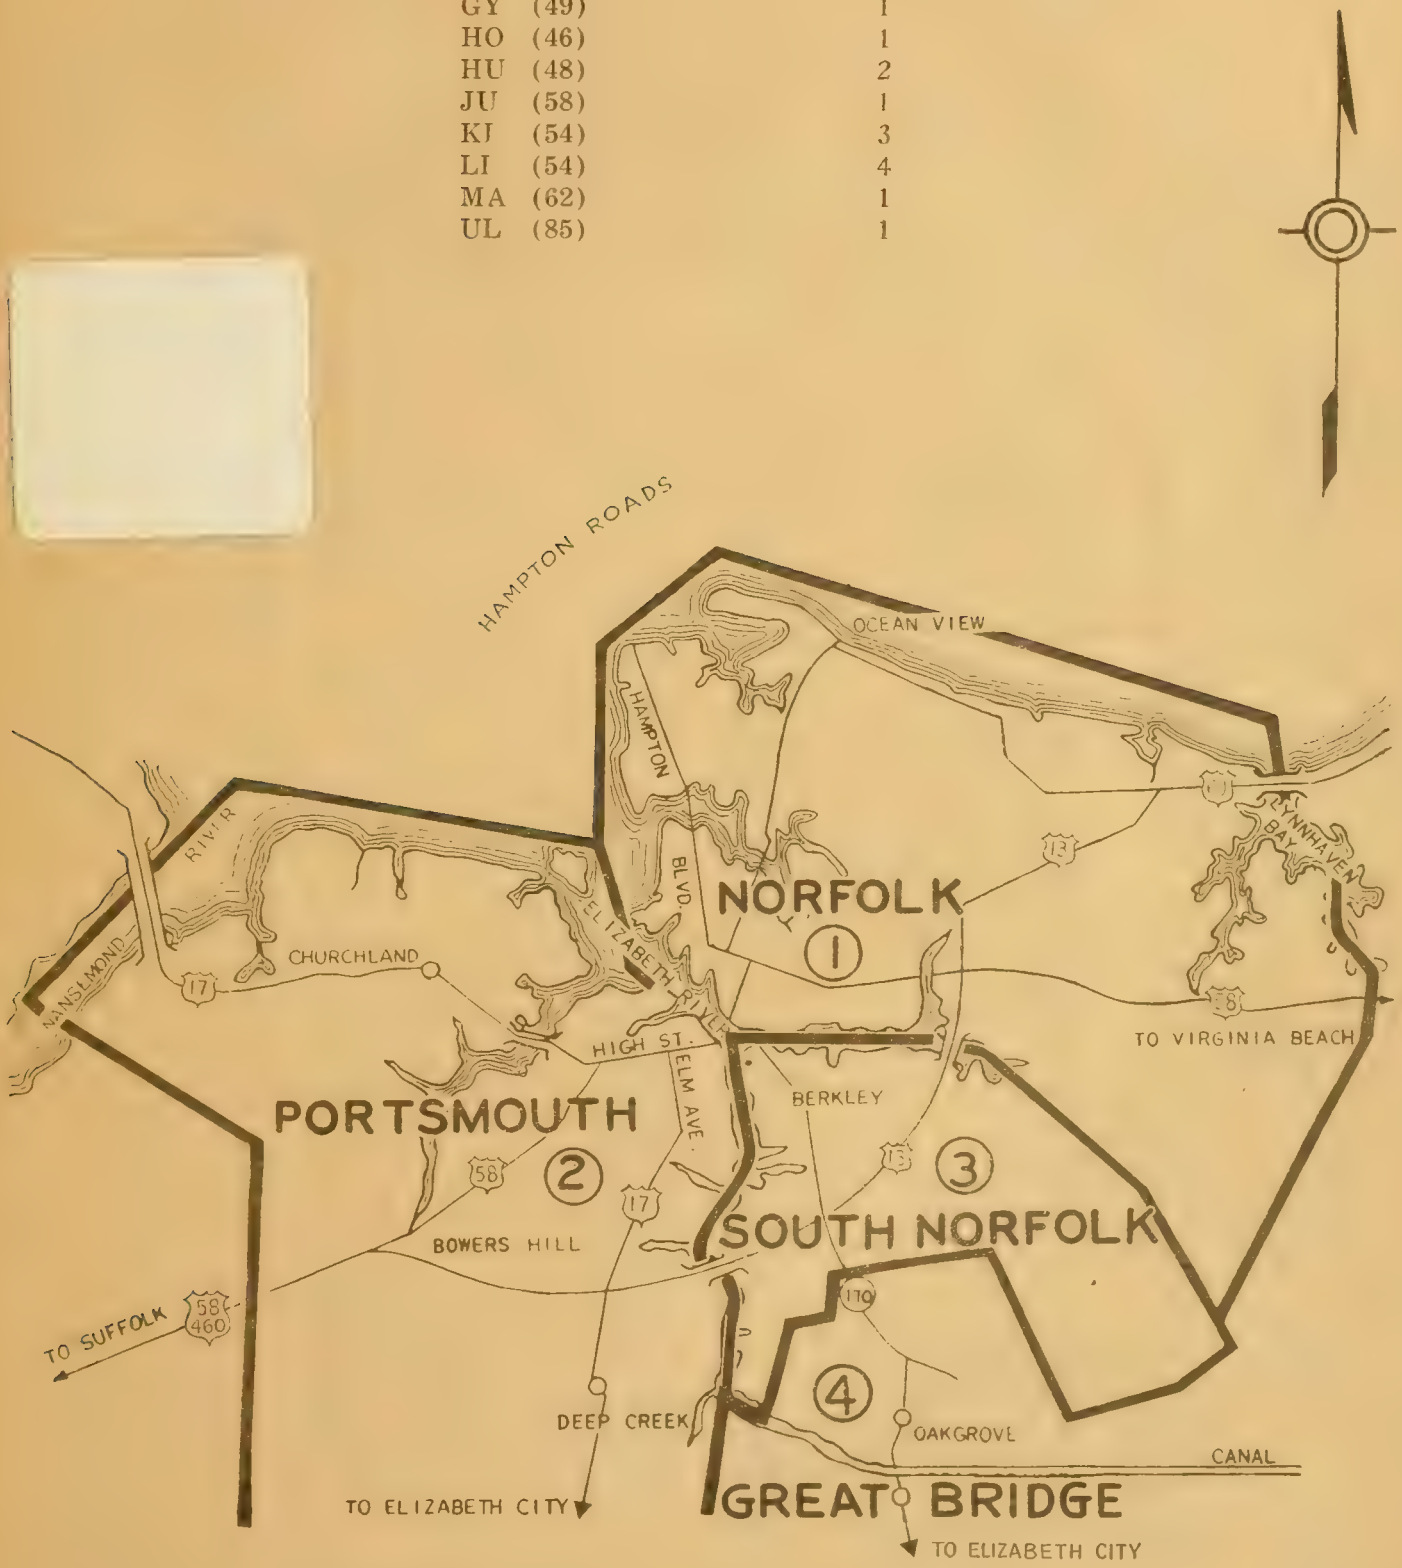
You may telephone telegrams, cablegrams, or radiograms to the Western Union Telegraph Company —see the listings of that Company in this directory —and have the charges appear on your telephone bill. You may also telephone your Western Union telegrams from coin telephones, paying as you would for a telephone call.

OUT-OF-TOWN DIRECTORIES

Directories of other cities may be obtained by our customers at a nominal charge. Call your Business Office. . . . . Telephone directories of the principal cities and towns in the United States may be consulted at 740 Granby St., Norfolk, 804 High St., Portsmouth or 103 S. Road St., Elizabeth City, N. C.

Your TELEPHONE NUMBER *Is Important*

It's smart to make it easy for your customers to reach you. So why not include your telephone number on your stationery, statements and all advertising pieces? Show your Area Code 703 too—it helps distant parties call you faster.



TARIFFS

Tariffs which show rates, rules and regulations for telephone service and facilities, on file with the appropriate Regulatory Commissions are available in our Business Offices for public inspection.
